

Mission to Haryana and Rajasthan—air compressor technologies

16th–22nd December 2018 | Haryana, Rajasthan

During this Mission, IGES–TERI conducted feasibility studies for energy efficient technologies, with particular focus on air compressors, at three manufacturing plants: (1) health and life-care products, (2) auto components and (3) automobiles. Also, an in-house training program on best practices was organized for plant personnel at the automobile manufacturing plant.

**At Maruti Suzuki India Ltd, Manesar
(Haryana)**

**At Disposable Health & LifeCare, Faridabad
(Haryana)**

At Shriram Pistons & Rings, Alwar District (Rajasthan)
